ADDENDUM NO. #1

Date: December 13, 2024
Project Name: Service Line Connections Project
Owner: Midwest City Municipal Authority
Owner Project No.: PWSID OK 1020806

This addendum shall be a part of the Plans, Contract Documents and Specifications to the same extent as though it were originally included therein, and it shall supersede anything contained in the Plans, Contract Documents, and Specifications with which it might conflict. This addendum, including all attachments, shall become part of the Contract and all provisions of the Contract shall apply thereto. The time provided for completion of the Contract has not been changed as noted in this addendum. Acknowledgement of receipt of this addendum must be noted in the appropriate section of the Bid Form and included with the Contract Documents.

A. SPECIFICATIONS

1. Remove the following specifications sections in their entirety, and replace with the same, attached hereto:
 - a. BIDDING DOCUMENTS- DETAILED BID FORM
 - b. DW-185 – DAVIS BACON DOCUMENTATION
 - c. 0205 – MEASUREMENT AND PAYMENT

B. DRAWINGS

1. No revisions to drawings.

By: 

Michael Salinas, P.E.
Project Manager

OK COA # 4193
EXPIRES 06/30/2026

Attachments:

Bidder's Proposed Notice to Proceed Date _____
(Date after potential award of contract bidder proposes to commence work)

NOTE: All items are required to be bid. Quantities listed are for evaluation purposes only, payment will be based on actual quantities installed for the project and completed per specifications.

Amounts are to be shown in both words and figures. In case of any discrepancy, the amount shown in words will govern.

The above unit prices shall include all costs for labor, materials, overhead, profit, insurance, etc., to cover the finished work of the several kinds called for.

Bidder understands that the Owner reserves the right to reject any or all bids and to waive any informality in the bidding.

The Bidder agrees that this bid shall be good and may not be withdrawn for a period of ninety (90) calendar days after the scheduled closing time for receiving bids.

Davis Bacon Act prevailing wage rate requirements shall apply. All laborers and mechanics employed by contractors and sub-contractors on projects funded directly by or assisted in whole or in part by and through the Federal Government shall be paid wages at rates not less than those prevailing on projects of a character similar in the locality as determined by the Secretary of Labor in accordance with subchapter IV of Chapter 31 of Title 40, United States Code. The Department of Labor provides all pertinent information related to compliance with labor standards, including

prevailing wage rates and instructions for reporting. For more information, please refer to <http://www.SAM.gov>.

By submitting a bid/proposal under this solicitation, the Bidder understands that the bid/proposal is subjected to the Davis-Bacon Act including prevailing wage rates and the Contract Work Hours and Safety Standards Act.

Equal Opportunity in Employment: All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age or handicap. Bidders on this work will be required to comply with the President's Executive Order No. 11246, as amended. The requirements for bidders and contractors under this order are explained in the specifications.

Each bidder must fully comply with the requirements, terms and conditions of the Oklahoma Department of Environmental Quality (DEQ), Small, Minority, Women's Businesses Requirements including affirmative steps to contract with small, minority and women's businesses during the performance of this contract. The bidder commits itself to the affirmative steps to contract with small, minority and women's businesses contained herein and all other requirements, terms and conditions of these bid conditions by submitting a properly signed bid. Requirements are contained in Oklahoma Department of Environmental Quality Guidance and Procedures, DW-700.

American Iron and Steel provisions also apply to projects funded directly by or assisted in whole or in part by and through the Federal Government pursuant to the Safe Drinking Water Act, Section 1452(a)(4), requiring that all iron and steel products used for a project for the construction, alternation, maintenance or repair of a public water system are produced in the United States.

By submitting a bid/proposal under this solicitation, the Bidder certifies that all Iron and Steel used in the project are produced in the United States in accordance with the "Consolidated Appropriations Act, 2014.

By submitting a bid/proposal under this solicitation, the Bidder shall submit American Iron and Steel Certification Form DW-501 with the bid.

System for Award Management (SAM) registration is required for all DWSRF program applicants and Awardees (Entities, prime contractors, subcontractors, vendors) in order to be awarded contracts by the DWSRF program. SAM replaces Central Contractor Registration/Federal Agency Registration, Online Representations and Certifications Application, and Excluded Parties List System. Applicants and awardees are required to complete a one-time free registration to provide basic information relevant to procurement and financial transactions. New Applicants and awardees please go to Sam.gov to complete the registration process.

Note: In order to register in SAM, a Unique Entity Identification (UEI) number will be required. A UEI is a 12-character (alpha-numeric) code that uniquely identifies all entities. Any entity registering to do business with the government in terms of contracts or grants and assistance awards is required to have one. Unique Entity IDs are issued by SAM.gov and are a part of an entity's record in the Entity Information section of SAM.gov.

Upon receipt of written notice of acceptance of this bid, Bidder will execute the formal Contract attached within ten (10) days and deliver all bonds as required by the General Conditions. The bid security attached in the sum of

DOLLARS

(\$ _____) is to become the property of the Owner in the event the Contract and Bonds are not executed within the time set forth above, as liquidated damages for the delay and additional expense to the Owner caused thereby.

DAVIS-BACON WAGE DECISION

(Reproduce on green colored paper)

"General Decision Number: OK20240026 10/04/2024

Superseded General Decision Number: OK20230026

State: Oklahoma

Construction Type: Heavy

County: Oklahoma County in Oklahoma.

HEAVY CONSTRUCTION PROJECTS (including sewer/water line construction; heavy construction projects on treatment plants and industrial sites) (excludes heavy dredging and water well drilling)

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(1).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	<ul style="list-style-type: none"> . Executive Order 14026 generally applies to the contract. . The contractor must pay all covered workers at least \$17.20 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2024.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	<ul style="list-style-type: none"> . Executive Order 13658 generally applies to the contract. . The contractor must pay all covered workers at least \$12.90 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2024.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at <http://www.dol.gov/whd/govcontracts>.

=====

** Workers in this classification may be entitled to a higher minimum wage under Executive Order 14026 (\$17.20) or 13658 (\$12.90). Please see the Note at the top of the wage determination for more information. Please also note that the minimum wage requirements of Executive Order 14026 are not currently being enforced as to any contract or subcontract to which the states of Texas, Louisiana, or Mississippi, including their agencies, are a party.

Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (iii)).

The body of each wage determination lists the classification and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example:

Addendum No. 1

PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

State Adopted Rate Identifiers

Classifications listed under the ""SA"" identifier indicate that the prevailing wage rate set by a state (or local) government was adopted under 29 C.F.R. 1.3(g)-(h). Example: SAME2023-007 01/03/2024. SA reflects that the rates are state adopted. ME refers to the State of Maine. 2023 is the year during which the state completed the survey on which the listed classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 01/03/2024 reflects the date on which the classifications and rates under the ?SA? identifier took effect under state law in the state from which the rates were adopted.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.

=====
END OF GENERAL DECISION"

SECTION 0205

MEASUREMENT AND PAYMENT

1.1 MOBILIZATION

METHOD OF MEASUREMENT: Mobilization shall be measured by lump sum. Mobilization shall be paid at the contract unit price bid. Payment shall include material, labor, equipment, and other incidentals as specified in contract. Mobilization shall be paid at no more than 50% at start of construction and monthly thereafter based on progress. Payment for de-mobilization shall occur only after the close out documents are received. Mobilization cannot exceed 5% of the total work order cost.

BASIS OF PAYMENT: Mobilization shall be paid at the contract unit price for:

Mobilization

Lump Sum

1.2 ROAD BORES

METHOD OF MEASUREMENT: Road bore shall be measured on an each basis complete and accepted. Measurement for road bore will be made on a direct horizontal line from the existing water line to the water meter. Payment for road bore shall include all equipment, labor and materials required to complete road bore and install water service line through bore, including the pulling of pipe, labor, and equipment necessary to install complete in place.

BASIS OF PAYMENT: Accepted road bore will be paid for at the contract unit price for:

Road Bore- [Number]-Lane Road

Each

1.3 METER RECONNECTION

METHOD OF MEASUREMENT: Meter reconnection shall be measured by each water meter installation and service line reconnection as set forth on the plans or identified by the Owner. Water meter will be provided by owner. Payment for meter reconnection shall be at the unit price bid for meter reconnection. Payment shall include reinstallation of meter box, angle valve, five foot (5') of service line on the house side of the meter, connection to the service lines on both sides of the installation, installation of the meter/AMR (complete), excavation, backfill, site restoration, permitting fees and all other material, labor, and equipment required to make a complete water meter installation.

BASIS OF PAYMENT: Accepted meter reconnection installations will be paid for at the contract unit price for:

Meter Reconnection

Each

1.4 EXISTING WATER LINE TO BE CAPPED AND PLUGGED

METHOD OF MEASUREMENT: Existing water line to be capped and plugged shall be measured by lump sum. Payment for water line to be capped and plugged shall include excavation, trench safety, mechanical cap, concrete blocking, backfill, site restoration, equipment, material and labor necessary to cap and plug the existing water line complete in place.

BASIS OF PAYMENT: Accepted existing water line to be capped and plugged will be paid for at the contract unit price for:

Existing Water Line to be Capped and Plugged	Lump Sum
--	----------

1.5 DISCONNECTION OF EXISTING WELL

METHOD OF MEASUREMENT: Disconnection of existing well shall be measured by lump sum. Payment for disconnection of existing well shall include excavation, trench safety, mechanical cap, backfill, equipment, material and labor necessary to disconnect existing well complete in place.

BASIS OF PAYMENT: Accepted disconnection of existing well will be paid for at the contract unit price for:

Disconnection of Existing Well	Lump Sum
--------------------------------	----------

1.6 WATER METER BOX

METHOD OF MEASUREMENT: Water meter box shall be measured by each water meter box installed as set forth on the plans or identified by the Owner. Payment for water meter box shall include installing water meter box, equipment, material, backfill, site restoration and any incidentals to complete installation of water meter box complete in place.

BASIS OF PAYMENT: Accepted water meter box installations will be paid for at the contract unit price for:

Water Meter Box	Each
-----------------	------

1.7 POTHOLE CITY AND PRIVATE SERVICE

METHOD OF MEASUREMENT: Potholing City and Private water service shall be measured by each water service potholed. Pothole 5' on both sides of the meter and at existing Starview water line connection if material is galvanized, identify and record pipe material and meter coordinates, and site restoration. This item also includes neatly logging in a "City Approved Inspection Sheet" all public and private service line materials and meter coordinates for each service line furnished.

BASIS OF PAYMENT: Accepted potholing service shall be paid at the contract unit price for:

Pothole City and Private Service	Each
----------------------------------	------

1.8 REPLACE SERVICE LINES

METHOD OF MEASUREMENT: Replace service lines shall be measured by linear feet for each service line replaced and accepted by the Owner. Service lines include AWWA C901 HDPE from the meter to 5-feet from the residential structure. All service line installation work is to be done in accordance with the Specification for Water Service Installation.

BASIS OF PAYMENT: Accepted service line replacement will be paid for at the contract unit price for:

Replace Service Lines	Linear Feet
-----------------------	-------------
