

## MIDWEST CITY SPECIAL ELECTION ON TUESDAY, AUGUST 28

The Midwest City Council unanimously approved calling a special election for our residents to vote on funding a variety of projects throughout the community. There are four propositions that include a total of 19 projects for Residential Streets, Water Storage and Distribution System, Parks and Recreation, and Public Safety. You will vote on each proposition separately. Approving the propositions would authorize the City to issue General Obligation Bonds to fund the projects within each proposition. You can find more information about the propositions and GO bonds at [MovingForward2018.org](http://MovingForward2018.org).

### PROPOSITION #1: STREETS | \$15,965,000

In the last Citizen Survey, our residents noted residential streets are a top priority. We have identified 249 neighborhood streets in nearly every square mile for repairs and repaving. This would include significant improvements for the residential streets in the "Original Mile."

### PROPOSITION #2: WATER BOOSTER STATION | \$5,560,000

The current booster station was built in the 1940s and early 1950s. This project would fund Phase 1 reconstruction of a 60-year old booster station and replace a 70-year old underground storage tank with an above-ground storage tank. These upgrades to our water distribution and storage system would help ensure consistent delivery of water for our customers as well as reliable water pressure for fire hydrants.

### PROPOSITION #3: PARKS AND RECREATION | \$21,635,000

Recreation, green spaces, and sports facilities positively impact our community for our residents and families. They also add to the quality of life that encourages new business and commerce to make investments in our community's economy. Here are the projects to be considered:

- John Conrad Golf Course Renovation
- Reed Baseball Complex Renovation
- Additional Soccer Fields
- New Multi-Purpose Athletic Facility
- Mid-America Park Improvements
- Town Center Park Improvements

### PROPOSITION #4: PUBLIC SAFETY | \$ 10,490,000

Our city has several needs to help us continue to provide quality public safety services. Investments in equipment, training and technology help us provide quick response to calls for assistance. A new Animal Services Center would enable us to provide humane care and increase adoptions for the animals at the City's shelter. Here are the projects to be considered:

- New Animal Services Center
- Police/Fire Training Facility
- Two Fire Trucks
- Fire Live Burn Building
- Replace Fire Self Contained Breathing Apparatus Equipment
- Fire Hose, Nozzles, Mobile Air, & Command Vehicle
- Fire Station 1 Remodel
- Five Fire Station Exhaust Removal Systems
- Police & Fire Radio Replacement/ Additional Tower Site
- Replacement/Additional Tornado Sirens
- 9-1-1 Call Center Improvements

*This information is provided to help inform residents of our City about the propositions. For more information, please visit [MovingForward2018.org](http://MovingForward2018.org).*
