Re: Authorization for Stormwater Discharge from Phase II Small Municipal Separate Storm Sewer System (MS4), DEQ Authorization Number: OKR040011, Oklahoma County, Oklahoma

Dear Mr. Lyon:

The Notice of Intent for the City of Midwest City was received on August 30, 2021 and processed by the Oklahoma Department of Environmental Quality (DEQ). Enclosed is an authorization allowing you to discharge stormwater under the terms and conditions of the OPDES General Permit OKR04 for Phase II Small MS4 Discharges within the State of Oklahoma from your MS4 located in **Oklahoma County**.

Your authorization to discharge stormwater shall become effective on September 17, 2021 and expire at midnight on May 31, 2026. The application fee associated with this authorization has been paid. DEQ will send you an invoice regarding the applicable annual fee associated with this authorization. Please conduct an annual review of your SWMP, update it for necessary changes, and submit your annual report by **April 30, 2022**.

If you have any question regarding this authorization or the Stormwater Program, please call me at (405) 702-8209 or email me at Kelly.Pham@deq.ok.gov.

Sincerely,

A handwritten signature in black ink that reads "Kelly Pham".

c: Patrick Menefee, PWA City Engineer / Stormwater Program Manager

Oklahoma Department of Environmental Quality
Authorization to Discharge Stormwater under the OPDES General Permit OKR04
from Phase II Small Municipal Separate Storm Sewer System

Authorization No. OKR040011

In compliance with the Oklahoma Pollution Discharge Elimination System (OPDES) Act, 27A O.S. §2-6-201, the rules of the Department of Environmental Quality (DEQ), and in reliance on the certified statements and representations heretofore made in its application,

Midwest City MS4
100 N. Midwest Blvd
Midwest City, OK 73110

is authorized to discharge stormwater from a small municipal separate storm sewer system (MS4) located in Oklahoma County at the approximate geographical location: Latitude 35° 27' 53.4", Longitude -97° 23' 14.3".

The receiving bodies of water are Albert High School Creek, Choctaw Creek, Crutch Creek, Kuhlman Creek, Silver Creek, Soldier Creek, and 3001 Branch. This facility discharges into 303(d) listed streams.

The OPDES permit requires permittee to have a Stormwater Management Program (SWMP) which must include appropriate Best Management Practices (BMPs) addressing six minimum control measures to reduce discharge of pollutants in stormwater to the maximum extent practicable to protect water quality, with implementing BMPs, monitoring, and possible reporting requirements.

All applicable requirements of the Permit are subjected to DEQ's inspections and audits.

The SWMP must be available and implemented at your small MS4.

The authorization shall become effective September 17, 2021 and will expire at midnight May 31, 2026.

All terms and conditions of the OPDES Stormwater General Permit OKR04, which become effective on June 1, 2021, shall apply to the recipient of this authorization.
