KEEP OKLAHOMA BEAUTIFUL

The City of Midwest City was recently honored by Keep Oklahoma Beautiful for an Environmental Excellence Award for the North Oaks Revitalization Project.

This was truly a collaborative effort led by the Community Development Department that included assistance from Grants Management, Code Enforcement, the Midwest City Police Department, and the Neighborhood Association.

The multi-phase revitalization project included the addition of a playground, detention and three cul-de-sacs. The result of revitalization? Substantially decreased crime and fewer traffic accidents!

Congratulations to Community Development for leading such a success project in this neighborhood!
WHAT IS PUBLIC WORKS

You likely hear us mention Public Works or read about Public Works in our social media or our publications. You may be wondering, ”What exactly is public works?”

Public Works are services provided to the public; used by the public; and usually paid for by your tax dollars.

Public Works can be found all around you ... it is water and wastewater (how water is cleaned and goes through pipes, or waterlines); engineering and construction (how public facilities are built); trash and recycling collection; and drainage maintenance.

Street maintenance and repair as well as efforts to protect stormwater quality (and thus the quality of our streams, lakes and drinking water) are also under Public Works. Parks maintenance is another part of the Midwest City public works department.

Public Works are the men and woman who put sand on the streets when it snows, and repair waterline breaks at all times of the day and night. In any disaster that strikes our city, they are the first to arrive and the last to leave.

What we do is often unseen but is crucial to your day to day life as you drive our streets, visit our parks, flush your toilets, and turn on your faucet.

We are working to make sure the Midwest City community is a better, safer place to live, work and play! Visit Public Works at midwestcityok.org.

ANNUAL FINANCIAL AUDIT

Results of the annual city audit are due this month and will be presented at a city council meeting. Each year a financial audit is performed as required by state law. Based on auditor’s opinions, Midwest City has a long history of financial statements that accurately present the City financial position for all of our actions. Copies of the audit(s) are on the City’s website.
