Economic Development: New Businesses

Holiday Decorations: Fire Safety Tips
Quarterly Curbside Bulk Waste Reminders

SPOTLIGHT:

Although business has been anything but usual the past seven months, Midwest City continues to see upwardly-trending sales tax collections along with expansion of our business roster.

Olive Garden, 5915 SE 15th St., is almost complete and is expected to open in early November. Across the street from Olive Garden, the new Center Marketplace is under construction with expected completion in spring 2021. Center Marketplace will feature new faces including Nashbird Chicken, Pearl Vision, and two other surprises! Uptown Cheapskate, an upscale women’s resale clothing shop, opened a few weeks ago at 6005 SE 15th St. right next to the new Louie’s Grill & Bar. There is a new barbecue restaurant in the works in the same building.

The SE 15th Street corridor isn’t the only place seeing growth; Scooters Coffee just opened its sixth OKC metro location at 1865 S Douglas Blvd.

The Catch has replaced The Drum Room at 2320 Air Depot Blvd, but The Wedge Pizzeria remains under the same roof. Brielle’s Bistro is leaving its NE 23rd Street location and moving to a larger, newer building at 2113 Air Depot Blvd. The former Brielle’s location on NE 23rd may see a new restaurant concept soon.

Thank you for supporting local businesses! When you shop or eat in Midwest City, you support our local economy!

FIRE SAFETY TIPS

Follow these tips to make sure your holiday is not only merry and bright, but safe for all.

1. Never leave your lights on unattended.

2. Use LED lights instead of incandescent lights. They are safer, last longer and use less electricity.

3. Use flameless candles instead of lit candles. They are safer, especially for homes with children or pets.

4. Indoor and outdoor lights are not interchangeable. Indoor lights are not sealed against moisture, making them unsafe for wet winter weather.

5. Only use three light strands per outlet and use a power strip with a built-in circuit breaker for added protection. (Please make sure yours doesn’t look like this serious fire hazard!)

6. Keep extension cords dry and make sure to use surge protectors to minimize damage in case of voltage fluctuation.

7. Did you know live Christmas trees are the leading cause of house fires during the holidays? If you opt for a live tree, make sure it is fresh when you buy it and keep it well-watered. When it dries out, dispose of it.

rent, mortgage and utility

EMERGENCY ASSISTANCE

The City of Midwest City has partnered with Community Action Agency to provide emergency assistance for residents with low to moderate income who have been affected by COVID-19 for rental assistance, mortgage payments and utility assistance.
